

ROTARIANS DECLINE WORLD PEACE ROLE

Promotion of Amity Among
Nations Deemed Beyond
Its Powers.

SCITUATE, June 15.—The International Association of Rotary Clubs today refused to commit itself in regard to the ambitious international program proposed by the Halifax club for a "Committee on International Amity." Much of the day's session was devoted to the question of Rotary's part in international affairs. The conclusion reached was that the association should not attempt a definite organized effort beyond its powers. But while the convention refused to adopt the Halifax resolution, even when emanated from the point of a plume wish, it was made plain that the association in the normal course of its work will continue to promote a better international understanding among its members in accordance with the rotary spirit in general.

General satisfaction was expressed over the final adjustment of this important venture into international affairs.

Dr. Crawford C. McCullough of Fort William, Ontario, was unanimously elected president of the International Association for the ensuing year. He told the New York Herald's correspondent that the promotion of international good will and understanding undoubtedly would be included in the objects of the organization as defined in constitutional amendments to be proposed at the next convention. It will be through the association's own efforts, however, and through the extension of rotary clubs to other lands. Among the local organizations represented were 639 clubs from the United States, 32 from Canada, 31 from Great Britain and Ireland, 5 from Cuba, 3 from South America and 1 from Europe.

The convention will close to-morrow, when action will be taken on the invitation of Gen. Henry T. Allen to visit the American Army of Occupation at Coblenz. A cordial letter was received from Gen. Allen offering hotel accommodations if the party did not exceed fifty, but extending hospitality to any number of delegates up to 1,000.

Gabriel Gorce, president of the Paris Club, again addressed the convention to-day, telling of the problems surrounding the starting of Rotary clubs in France. "The Frenchman hasn't the club habit," he said. "He takes luncheon at home as a rule, but we are confident that once the Rotary idea has become firmly established in Paris and elsewhere the club habit will follow."

Walter S. Rolfe of Newcastle, chairman of the resolutions committee, reported the Halifax resolution, which recited the fact of a recurrence of another war through trade rivalry and instructed all clubs "actively to strive to promote good will, understanding and friendship among all peoples." But the resolution was short of the program of a special committee to carry on this work.

Thus presented the resolution aroused active opposition from the Rotarians, who profess never to pass resolutions as such unless some actual practical result is sure to follow, and on the motion of R. A. McDowell of Louisville, the resolution was tabled.

**HAYS HERE TO STUDY
CITY'S MAIL PROBLEM**

Will Determine Plan for Expenditure of Millions.

To determine how between \$10,000,000 and \$20,000,000 shall be spent for improved facilities in New York city the Joint Congressional Commission on Postal Affairs came to town yesterday.

It was accompanied by Postmaster-General Will H. Hays, who expressed gratification at its work.

One of the things to be determined is whether the old Post Office Building in Wall street shall be torn down and the site restored to New York city.

To-day will be spent, as yesterday, in making a tour of the various postal stations and looking over sites for proposed new buildings. Although the business of the Post Office has been increased 283 per cent. since 1912, there has been little if any increase in facilities. New York city handles more mail matter every day than the entire Dominion of Canada.

**CRIME INVESTIGATOR
GUILTY OF PERJURY**

**Barbuti Convicted in Nassau
Stolen Car Cases.**

Thomas V. Barbuti, formerly crime investigator of Nassau county, was found guilty of perjury in fifty-five minutes last night by a jury in Nassau County Supreme Court at Mineola. The trial ended about 10 o'clock, when the jury retired. It had been expected that there would be some difficulty reaching a verdict and Justice Crosey had left the court house.

When informed of the verdict Barbuti said he had nothing to say. He was returned to jail for sentence early next week. In the trial of Carman Plant, formerly Nassau county detective, charged with criminally receiving stolen automobiles, Barbuti testified that he and Morris L. Dickerson had dined with Plant and discussed arrangements for the sale of stolen cars. Dickerson later admitted this testimony was wrong, whereupon he and Barbuti were indicted for perjury. Barbuti took the stand yesterday.
